MILWAUKEE DAILY SENTINEL.

VOLUME XV. MILWAUKEE, FRIDAY MORNING, NOVEMBER 5, 1858. NUMBER 263.

THE DAILY SENTINEL.

FRIDAY MORNING, NOVEMBER 5.

The News.

The steamship *America* brings us European dates to the 23d ult. The commercial news is not especially important. The breadstuffs markets continued steady. A few words had been received at Valentia from Newfoundland thro' the Atlantic Cable. A full synopsis of the steamers news will be found in the telegraph column.

A large share of our columns is occupied with election returns, which are too numerous to allude to. The Republicans have gained largely on every hand. The result in the Third Congressional District, in this State, is not yet fully known. It is thought, however, that the Republican candidate is certainly elected. Another day will probably settle the matter beyond a doubt.

We have no important change to notice in the Eastern or our own Produce Markets.

The weather continues rainy, and mud reigns supreme in city and country.

The Result in Illinois.

There is no longer any question as to the result in Illinois. After a very severe contest, the friends of Mr. DOUGLAS have succeeded in carrying a small majority in the Legislature. If this is a Republican defeat, it is a still more signal overthrow of the Buchanan Administration.

The First Congressional District Complete. 1—Majority for John F. Potter 3,172!

The result in this District, as compared with that two years ago, is as follows:

Counties.	1855. Potter,(R.)	Brown,(D.)	1859. Potter,(R.)	Hadley,(D.)
Milwaukee,	—	746 m.	—	1129 m.
Waukesha,	442 m.	—	999 m.	—
Racine,	601 "	—	620 "	—
Kenosha,	534 "	—	674 "	—
Walworth,	2211 "	—	2252 "	—
	3919	746	4435	4129

POTTER'S majority in the District *now*, is 3178! Two years ago it was only 306. Republican gain 2867!

The Second and Third Districts.

Our returns from these two Districts are still incomplete. We see no reason to doubt that Mr. WASHBURNE is re-elected in the Second District by a handsome majority. In the Third District, it is close between BILLINGHURST (Rep.) and LARRABEE (Dem.,) but we still incline to the opinion that the former has been successful.

Walworth the Banner County.

WALWORTH County, the home of JOHN F. POTTER, gives him the unprecedented majority of 2,241. This is an improvement over on the tremendous majority of 1856, and entitles Walworth to the Banner of the State.

RACINE COUNTY.—This county, though giving POTTER 601 majority and electing the entire Republican County Ticket and three out of four Republican Assemblymen, *defeats* Mr. COLLINS, the Republican Candidate for Senator, by *sixteen votes!* This reverse is unexpected and we do not know how to account for it. Can our Racine friends explain?

ROCK AND WALWORTH.—Every town in these two glorious counties gives a Republican majority! Rock gives WASHBURN 2080 majority for Congress and Walworth gives POTTER, for Congress, 2241 majority. *Par nobile fratrum!*

Illinois Election—Result Still in Doubt—Lincoln's Chances Improving.

We are unable this morning to give the result of Tuesday's election, with a sufficient degree of accuracy to determine the complexion of the Legislature—the chief point of interest.

According to our tables, with all the returns received up to midnight, before us, the result thus far is as follows:

HOUSE OF REPRESENTATIVES.

Lincoln men,	35
Douglas men,	31
Not heard from,	9
Full House	75
Necessary to choice	38

The districts to hear from are there:

	Members.
Randolph,	1
Madison,	2
Wabash and White,	1
Fulton,	2
Bond and Clinton,	1
Hancock,	1
Logan and Mason,	1
	9

Of these we are of the opinion that we can safely claim:

Madison,	2
Randolph,	1
Hancock,	1

With an equal chance in Fulton, Wabash, and White, and Bond and Clinton. If our calculation is correct, Mr. Lincoln's friends will have the Lower House by one vote.

SENATE.

Of the thirteen members of the Senate to elect, we have surely elected *six*. Add these to the five holding over, and the footing is as follows:

Lincoln men,	11
Douglas men,	11
Doubtful,	3

Of the doubtful districts we have the best chance for Madison and for Hancock—the former composed of the counties of Madison, Bond and Montgomery; the other of Hancock, Henderson and Schuyler. We dare not assert that we have carried both; but the indications favor a belief in our triumph. The contest is very close, and as the reader will see, exceedingly doubtful—We now incline to the opinion that we have both Houses; but to-morrow will probably remove all doubt. But, let our friends hold themselves until there can be no mistake; and then do what the news prompts.

So says the Chicago *Press and Tribune*, (Rep.) of yesterday morning. On the other hand, the Chicago *Times*, Douglas, ciphers up the result thus:

Senate—14 Democrats, 10 Republicans, 1 to hear from.

House—38 Democrats, 32 Republicans, 5 to hear from, which last year elected 4 Republicans and 1 Democrat.

Iowa Election.

Official returns from all but two counties in the First Congressional District give Curtis (R) 3,288 to 2,689 for Trimble—majority for Curtis, 599.

The returns from the Second District make Vandever R. 2,833 ahead of Leffingwell, and it was believed that the districts to be heard from would increase Vandever's majority to 2,900.

The Republican majority on the State ticket is a little rising of 3,000.

[WASHINGTON UNION PLEASE COPY.]

A Powerful Party.

The great National Democratic party of Illinois—supported by the Washington *Union*, and having the glory of such outside leaders as J. Glancy Jones, Howell Cobb, Jesse D. Bright, John Slidell, Daniel S. Dickinson, William Bigler, and one Clayton of the Treasury Department, with all the aid of federal money, and federal office holders, polled in the city of Chicago the enormous number of votes, viz:

215

The above sharp hit is from the Chicago *Times* of yesterday morning, the able DOUGLAS organ. The BUCHANAN Democracy made the slimmest kind of show in Illinois.

☞ James A. Swain has been nominated for Assembly in the Milwaukee District; we trust that he will be triumphantly elected.—*Manitowoc Tribune.*

Your *trust* was not misplaced, brother SMITH. Mr. SWAIN *was* "triumphantly elected," and that, too, over the strongest candidate that the democracy in the Fourth Ward could scare up.

ROCHESTER, Nov. 4.

HON. F. F. BACKUS, President of the Board of Managers of the Western House of Refuge and formerly a State Senator, died in this city to-day, aged 64 years.

Propellers.

FOR OGDENSBURGH.—A tri-weekly line of propellers also run to Ogdensburgh.

GRIFFIN & BARDLEY, at the foot of East Water street, are the Ticket Agents for both of these propeller lines.

FOR COLLINGWOOD.—A tri-weekly line of propellers run to Collingwood, stopping at intermediate ports, and leaving this city on Sunday, Wednesday and Friday of each week. L. D. JEROME, Agent.

PREPARING FOR THE CELEBRATION.—The meeting at Armory Hall last night, called to take into consideration the subject of getting up a celebration in honor of the People's triumph in this city and county, was well attended. After some discussion it was resolved to abandon the idea of having a torch-light procession. It was decided, however, to have one hundred guns fired by Harry Bingham, on Thursday next, in honor of the occasion, and in the evening hold a meeting at Albany Hall, which the members of Congress elect, and CARL SCHURZ, are invited to address.

The following gentlemen were appointed as a Committee, to make preparations for the meeting:

S. M. Booth, Chas. Knobelsdorff, B. Domschke, Rufus King and T. B. Kemp. Another committee was appointed to procure the Hall, consisting of John NIXON, E. P. Hotchkiss, and George Treyser. Mr. Merrill volunteered the services of the Cornet Band for the occasion.

THE "GROVER AND BAKER" $60 SEWING MACHINES.—By a notice in another column it will be seen that an agency for the sale of these celebrated sewing machines has been opened in this city, No. 13 Newhall House, Main street; Mr. E. W. ALEXANDER, a very courtious young gentleman, is the agent. The fame of the GROVER AND BAKER sewing machines has reached the "ends of the earth," and their excellent qualities are so widely known as to need no endorsement at our hands. It is generally conceded, we believe, that they are, practically, the best family sewing machines in use. Hitherto, however, their price has been so high, $75 to $150, as to place them beyond the reach of many who would otherwise be glad to use them. This difficulty is now removed by manufacturing the machines in a more simple style, which embraces not only all the good qualities of the old ones but several important improvements, and at a cost which enables the manufacturers to retail them at $50 each.

We had the pleasure of examining one of the $50 machines yesterday. It is extremely simple in construction, works with astonishing rapidity, sews a beautiful stitch any size that may be desired with a forty seamstress-power, and it requires neither practice nor study to use it, and it is equally adapted for woolen, linen, cotton or silk work. In short, it is a very model of a sewing machine, a real household necessity and no family in the country should be without one.

We advise our readers who may be in want of a reliable sewing machine, to examine the "Grover and Baker" and see it work before they purchase any other kind. The agency, it will be remembered, is at 13 Newhall House.

A CITY TIME PIECE.—It will be perceived that both branches of the Common Council have decided to accept the offer of the Right Bishop HENNI, tendering to the city the use of the large Clock recently received from Munich, provided the Common Council go to the expense of placing the same in the tower of the Cathedral. The city is to have free access to the Clock at all times, and also to have the privelege, if it is deemed necessary, of keeping a watchman in the tower, to give the alarm in case of fire in any part of the city. The face of the clock is to be illuminated with gas, so that it can be seen at a great distance at night. At any time the city see fit to discontinue the use of the Clock, the Bishop is to *refund* the cost of putting it up.

DR. NICHOLS' LECTURES.—Notwithstanding the unpropitious skies, the opening Lecture of this course, on Wednesday evening, was listened to by a large and attentive audience, largely composed of opponents of the Doctor's principles, to which he chiefly addressed himself, in a calm, gentlemanly and dignified manner. Much of the first lecture was occupied by a personal narrative intended as simply introductory to the subsequent, or argumentative ones. The subject of last night's Lecture was the history of the Catholic Church; that of to-night's (Friday's) is the History of Protestantism, at Young's Hall, 7½ o'clock.

YOUNG PEOPLE'S RE-UNION AND FESTIVAL.—We understand that there is to be a festival on Tuesday evening next, in CONOVER & MABBETT'S Hall, corner of South Water and Clinton streets, Fifth Ward, in aid of the South Presbyterian Church, of which Rev. Mr. DAY is the Pastor.—It is intended to make it a pleasant re-union of young people, and the price of admission will be only 50 cents including supper, which will be got up in good style by the ladies of Mr. DAY'S congregation. It will be a very agreeable party, and the object should secure a liberal attendance.

POLICE COURT YESTERDAY.—Thomas Sluggard, disorderly conduct, fined $5 and costs.

William Douglass, intoxicated, fined $1.

William Hill, intoxicated and disorderly, fined $1.

William Howard, intoxicated, fined $3.

Frederick Hespin, disorderly, fined $10.

Chas. Wenchman, disorderly, case held open, subject to good behavior of the accused.

☞ A DEER CAUGHT IN THE LAKE.—The *Wisconsin* says that a couple of hunters started up a deer down below the old harbor yesterday forenoon and frightened it in to the Lake. A fisherman seeing it out beyond the mouth of the harbor rowed out after it and succeeded in capturing it and cutting its throat. This is quite an anamoly. We have not heard of a deer's being seen within miles of the city for years.

Common Council Proceedings.

MAYOR PRENTISS PRESIDING.

The Board of Aldermen held their regular semi-monthly meeting, on Monday evening. All the members of the Board were present.

Accounts, petitions, memorials and communications, were referred to the appropriate committees.

The committee to whom had been referred the communication of Chas. Quentin, offering to sell the city a piece of property, in the Ninth Ward, to be used as a public Park, reported in favor of accepting Mr. Quentin's offer. The report was accepted, but a resolution instructing the Mayor and Comptroller to negotiate with Mr. Quentin, for the purchase of the same, offered by the Chairman, Ald. DeVos, was, on motion of Alderman Dousman, laid on the table.

The Chief of Police' returns, for the month of October, were presented by the Chair and ordered on file.

Bishop Henni, through James Johnson and others, to the city, of the use of the town-clock, recently received from Munich, under the control and management of the city, as a town-clock, be, and the same is hereby accepted, and the City Comptroller is hereby authorized to complete the details of the necessary arrangement with the Bishop for that purpose; and to enter into a contract with a suitable person to repair, put together and erect said clock, with all its fixtures and appurtenances, in the tower of the Cathedral, and to keep the same in repair and regulated for one year: Provided, *First*, That the expense to the city of so repairing, completing, erecting, putting together, keeping in repair, and regulating the same for said period of one year, shall not exceed two hundred dollars: Provided, further, that the Bishop shall give to the City Comptroller for the city, proper assurances of the city by its agents, shall at all times have free ingress and egress to and from said clock, when erected, with all the privileges mentioned in the communication to the Council making such tender, signed by James Johnson and others: Provided, further, that there shall be no obligation upon the city to continue to use said clock, or to repair, regulate, or keep the same in order any longer than the Common Council, for the time being, shall deem proper: And provided, finally, that said Bishop shall engage that, if at any time hereafter the Common Council shall elect to discontinue the use of said clock, he will refund to the city the amount of the first cost of repairing, furnishing, putting together, and erecting said clock, and putting the same in running order.

The vote on the above was:

Which amendment was concurred in and the resolution so amended was adopted.

The subject of buying a lot and erecting a house for Engine Co. No. 7, in the Fifth Ward, was again taken up together with a remonstrance from certain parties against the previous action of the Board upon the matter, and after some discussion the remonstrance and report of the Committee was referred to the Joint Local Committee of the Fifth and Eighth Wards.

The chair presented an estimate of Jacob Haas & Co., on account of their contract for building an engine house for Co. No. 1 for $500 and audited by the Comptroller, less 20 per cent, which was allowed by the following vote:

Ayes—8. Noes—1. Ald. Lindwurm voting in the negative.

A resolution authorizing the organization of a new Fire Company for the Sixth and Ninth Wards, adopted by the Board of Councillors, was laid on the table on motion of Alderman Phelps, the other Board refusing to concur in the amendment of the Board of Alderman.

A resolution that the Street Commissioners be requested to recommend that all the lots in the south half, and a part of those in the north half of block 163, in the Second Ward, be declared nuisances, and take legal steps to have them abated as early as possible according to law, was adopted.

A resolution that the recommendation of the Street Commissioners, dated October 29, 1858, in relation to Fourth Avenue in the First Ward, be, and the work therein recommended ordered to be done in accordance with law, was adopted.

A resolution, offered by Alderman DeVos, authorizing the Gas Company to erect lamp posts on the following streets in the Ninth Ward: One on the north east corner of Twelfth and Cherry streets, and one on the north west corner of Twelfth and Galena streets, and one on the south west corner of Twelfth and Walnut streets, and the Clerk be instructed to send the Gas company a certified copy of said resolution, was adopted.

Ald. Keogh offered an ordinance to amend an ordinance permanently to establish the grade of certain streets in the First Ward of the city of Milwaukee, passed February 24th, 1858, which was read twice and referred to the Local Committee of the First Ward.

Ald. Neidermann offered the following:

Resolved, The Board of Councillors concurring, that the Mayor and Clerk be, and they are hereby authorized and directed to sign and issue city warrants, for the sum of $15,046,00 to Messrs. Hasbrouck and Coure, and endorse the same on their contracts for dredging the middle ground of the Milwaukee river.

Resolved, That said city warrants shall only be receivable for old taxes of 1856 and 1857.

The chair ruled the resolution out of order as the question was yet pending in another form before the board.

Ald. Lindwurm moved to adjourn, which was lost.

Ald. Dousmen moved to re-consider the vote, by which the resolution allowing the claim of Messrs. Hasbrouck and Conro was passed.

Which was carried by the following vote:

Ayes—Ald. Carroll, DeVos, Dousman, Keogh and Niedermann, 5.

Noes—Ald. Daggett, Lindwurm, Phelps and Plankinton 4.

Ald. Daggett moved to adjourn, which was lost, ayes 3, noes 6.

Ald. Plankinton was opposed to paying in city orders orders or warrants, if an arrangement could be made to pay in city bonds, he would go for it,

Ald. DeVos, Niedermann and Dousman advocated the passage of the resolution.

After much discussion Ald. Niedermann moved that the question on the passage of the claim of Messrs. Hasbrouck and Conroe, be laid on the table; which was carried.

Ald. Dousman moved to take up the resolution offered by Ald. Niedermann.

The chair ruled that it could not be taken up until the previous question was disposed of.

Sundry accounts reported correct, by the respective committees were allowed by an unanimous vote, and referred to the Comptroller, when the Board adjourned to meet on Saturday evening next.

YOUNG MEN'S CHRISTIAN ASSOCIATION.—The second regular monthly meeting of this Association was held on Tuesday evening at their Rooms in Young's new Block, with a very crowded attendance. The monthly meetings are expected to be held in future in the Lecture Hall, in the same building; the Reading Room, which has been used heretofore, not being large enough to accommodat the attendance.

The meeting was called to order by the President, Mr. John H. Van Dyke, who called upon Mr. Robt. Menzies to open the meeting by reading the Scriptures and Prayer. A director, and a member of the Vigilance Committee, were then elected to represent the St. James Episcopal Church, Mr. F. A. Root, being chosen the former, and Mr. Robt. J. Chivas the latter. One or two other additions were also made to the Vigilance Committee.

There were then proposed for membership the names of forty-four young men, to be balloted upon at the next meeting. The Association numbers with this addition over three hundred members.

Mr. Chas. Caverno then read the Essay for the evening, which was a well-written paper upon *Sabbath Recreations*, and well merited the applause with which it was received. The Association offered a vote of thanks to the Essayist, and requested a copy for filing away with the Records.

The meeting then took up an amendment to the Constitution, which had been proposed at the previous meeting, in substance to change the age at which persons would be oligible as active or associate members, from thirty-five years, as it now reads, to *forty years*, and after a short but able discussion upon both sides, it was lost by a vote of nearly *ten to one*.

The following resolution, to which we yesterday gave some notice, was then adopted:

Resolved, That a special committee on Literary Exercises, consisting of six members, be appointed for the present official term, whose duty it shall be to organize and conduct a "LITERARY CLUB" to be formed of such members of the Association as may desire to connect themselves with it, who shall elect their own officers from either active or associate members, and from their own By-Laws, and shall hold weekly meetings in the rooms of the Association, for the purpose of Debates, Essays, and such other literary exercises as they may deem advisable; all questions for discussion, and subjects of essays, to be submitted to the approval of the committee.

The following persons were appointed such Committee, viz:

Samuel N. Millerd, Joseph Hamilton, Thomas Fitch, Jr., Frank D. Shepard, C. G. Townsend, Edward S. Taylor.

The Committee and those desirous of connecting themselves with the "Literary Club," were requested to meet at the Reading Room last evening, for the purpose of organizing.

The meeting then adjourned to the first Tuesday evening in December.

The Reading Room of the Association, it will be remembered, is open daily from 5 o'clock P. M., until 10 P. M.

STEALING.—A young girl, about 14 years old, named MARY VOLLMAN, was arrested yesterday forenoon, for stealing a porte-monnaie containing $2,28, and several articles of apparel, from the house of MATTHIAS GEISELMAN, on Tuesday night. It seems that the girl is the daughter of a poor widow, and she had been sent into town, from the country, a distance of 22 miles, to seek work. Not finding any, Mrs. GEISELMAN gave her something to eat and kept her over night, and when she went away in the morning, she took these articles. The Justice committed her to jail, to await the action of the Grand Jury. It is a hard case for the poor girl, and one calling for the house of refuge.

OYSTERS.—Messrs. DE MOR & RAYMOND, No. 16 Wisconsin street, wish us to say that they have made reliable arrangements so that they can furnish their customers any quantity of fresh Baltimore and New York Bay Shell, Oan or Keg Oysters. Those purchasing of them can rely on receiving as good and fresh Oysters as can be found in the market, and upon reasonable terms. Give them a call.

ENGLISH SNIPE.—We are indebted to our friend MERRILL, of the Prairie du Chien *Courier* for a dozen English Snipe, in prime order.—MERRILL reports game as quite plenty in his neighborhood.

THE WEATHER.—We are enjoying a protracted spell of the worst kind of weather; drizzly, dark, damp, and altogether disagreeable. The sun has not shown his face for eight or ten days past, and the streets and roads are all mud.

☞ Our readers will observe by our advertising columns, that Cooper's Refined Isinglass is now put up in small sized packages, suitable for families, by whom it is much used for Blanc Manges, Jellies, &c. Legislature—In the House the Democrats have a majority of 5, in the Senate 3.

New York Election.

NEW YORK, Nov. 4.

As far as heard from, the Republicans have carried 70 members of the Assembly, and the Democrats 30, leaving 28 to be heard from, nearly all of which have probably elected Republicans. The Senate will stand 19 Republicans to 12 Democrats. The *Tribune* still claims the election of Hoskins in the 9th district. Oneida county gives Morgan a majority of 2,700; Conkling's majority for Congress, 2,973. Republican increase over Clapp's vote, 2,887.

New Jersey Election.

TRENTON, N. J., Nov. 4.

The result in this State foots up a total loss to the democrats. All the Opposition members of Congress are elected by heavy majorities. The Opposition also have a majority in the Legislature, which defeats Wright, for U. S. Senator.—The members of Congress elect are, 1st district, John T. Nixon, Union; 2d district, John Stratton, Union; 3d district, J. B. Adrian, Union, re-elected; 4th district, J. R. Riggs, anti-Lecompton dem; 5th district, Wm. Pennington, Union. The administration loses three members.

Later from Europe—Arrival of the America.

NEW YORK, Nov. 3.

The steamship America from Liverpool the 23rd ult., arrived at Halifax at midnight yesterday.

The Liverpool commercial market was dull, and prices ½ lower. Breadstuffs were steady.—Provisions dull. Consols for money 93½@93¾.

The general news is of considerable interest. A few intelligible words had been received at Valentia from Newfoundland, and the shares in the Cable had rallied to £350@400.

The affair between Portugal and France in relation to the seizure by the former, of a French ship, remained unsettled. A favorite solution of the difficulty was expected, notwithstanding two more French men-of-war had arrived in the Tagus, and a vague rumor that the English Channel fleet had been ordered there.

The Galway Line has purchased the screw steamer Circassian, which leaves Galway on the 26th of October for New York, in place of the Prince Albert, for the season, and commence their monthly service to Portland on the 17th inst. Next Spring they commence weekly trips.

A telegram from Valentia reached London on the night of the 20th, stating that intelligent signals were again being received from Newfoundland. The signals were very distinct and the words were "Daniells now in circuit." Authority was at once given to use the Daniels battery likewise at Valentia. Mr. Seward, Secretary of the Company, in giving the news to the public says, "the power, though encouraging, must not be regarded as a permanent state of things, as it is still clear there is a serious fault in the cable, while at the same time it is not at present absolutely clear that any except the most extraordinary, and to the cable dangerous efforts can be made, more especially on this side, to overcome the existing obstacles in the way of perfect working. It is said the company will probably send one of Henly's powerful electric machines to Newfoundland.

The English funds were flat and business dull in other departments of the stock exchange.—The discount market was easy. On the continent business is dull and there is a great repugnance to speculation.

FRANCE.—There are reports that Portugal is not disposed to concede the demands of France.

SWITZERLAND.—The Council of the State of Geneva has formally declined to remove certain foreigners from Geneva.

SPAIN.—Several ships had sailed with troops for the West Indies. Several Madrid Journals have been seized and fined for political articles against O'Donnel.

ITALY.—The Olive Oil crop, about Tuscany and Lucca, is a failure.

PRUSSIA.—The Prussian Chambers had been opened by the regent, who requests them to acknowledge the necess

MILWAUKEE:

FRIDAY MORNING, NOVEMBER 5.

PROCLAMATION.

In the good Providence of God another year has passed, and its memories and its fruits have been gathered up. Toward all mankind He has exhibited abundant mercies, and upon us he has showered innumerable blessings. Seed time and harvest came and are gone, and the fat earth hath yielded its great harvests and its fruits, every tree and every plant bearing seed after its kind. His bow has been still in the clouds. His avenging rod has been withheld, and the pestilence that walketh in darkness, and the destruction that wasteth at noonday, have passed by us.

In science and art, and in intellectual development, the whole earth has been astonished at continued and startling successes and achievements. All trades, business avocations, professions and pursuits, have met everywhere with the success they have deserved. In all things commendable and useful, and of good report, we have met the approving smile of our Father who is in Heaven.

The works of the Lord are great, sought out of all them that have pleasure therein.

His work is honorable and glorious, and his righteousness endureth forever.

He hath made His wonderful works to be remembered; the Lord is gracious and full of compassion.

He hath given meat unto them that fear Him; He will ever be mindful of His covenant.

The fear of the Lord is the beginning of wisdom; a good understanding have all they that do His commandments; His praise endureth forever.

For all his bounties and mercies, and loving kindness and care, we owe the homage of grateful, humble and obedient hearts. Following a venerable and wisely inaugurated custom, I therefore do here appoint, **Thursday, the 25th day of November next**, as a day of Thanksgiving and Prayer and Praise. And I commend that day to the observance of the good people of this State, enjoining them to abstain thereon from all secular avocations and employments, excepting only works of necessity and mercy.

In Testimony Whereof, I have hereunto subscribed my name, and caused the Great Seal of the State of Wisconsin to be affixed.

Done at Madison, this 27th day of October, in the year of our Lord, one thousand eight hundred fifty-eight.

By the Governor,

ALEX. W. RANDALL.

J. D. REDDIN, Ass't Sec'y of State.

"Serene Indifference."

While the eyes of half the Union have been turned towards Illinois, during the recent exciting political campaign in that State, and very deep and general interest has been felt and expressed in the progress of the fight and in the final result of the election, the central organ of the National Democracy and the spokesman for the National Administration, has held aloof and maintained an attitude of "serene indifference." Hear what the Washington *Union* of Friday last says:

> The great question in American politics seems now to be, whether Mr. Douglas is a more worthy man than Mr. Lincoln? There are those who regard the controversy going on between these gentlemen much as the good wife estimated the battle between her husband and the bear—*the kids's ears which whipped*. But a large class undeniably prefer Lincoln to Douglas, and apparently there is another large class who prefer Douglas to Lincoln. It is a remarkable feature of the case that the boundaries of parties have been quite obliterated in estimating the merits of the two champions, many of the Republicans and Americans, and but a few of the Democrats out of Illinois, siding with Douglas, and many more against him and in favor of Lincoln. This is all quite natural and amusing.

Mr. Lincoln is a fierce Black Republican, and believes that free and slave States are incompatible elements in the same government. It is a very bad man, then, who is no better than Mr. Lincoln, and, of course, it is no great triumph for any one to be preferred to him. Mr. Douglas has acted offensively to the Democratic party, and has used all his powers to degrade and overthrow it, and that is just what Mr. Lincoln has done. He is preferred by the Republicans simply because he has had, and perhaps has now, more power to do mischief to the Democracy than Lincoln; and for the same reason there are Democrats who think the election of the latter to the Senate the lesser evil. The truth is, the problem is a very strange one, and difficult to solve. Meantime, we continue to feel a *serene indifference*—to participate largely in the sentiments of the good wife who witnessed the aforesaid struggle between her husband and the bear.

It is not impossible that Mr. Douglas and his friends in the present and next Congress may reciprocate the indifferent feelings of the *Union*, when that organ appeals, as usual, for a heavy subsidy from the National Treasury to reward its political labors.

THE RESULT IN THIS DISTRICT.—The *News* of yesterday owns up to having been very badly beaten in this District, and though it knows of "several ways of accounting for the result," it wisely concludes that it is not worth the trouble. The *News*, however, remarks:

> Brown ran far behind the estimates of the republicans in this county, while Potter has run as much ahead of them in other counties.

We confess to being disappointed—rather agreeably so than otherwise—in this County, but as to the other counties, the estimates of our Republican friends were singularly accurate. The morning before election Judge Potter and Gov. Randall gave us the following figures for the outside counties:

Waukesha,	4 to 500	majority for Potter.
Racine,	5 to 600	" " "
Kenosha,	3 to 500	" " "
Walworth,	2000	" " "

Judge Potter said that he should get 3,500 majority in the District, outside of this county, and *might* squeeze up to 3,800, or 4,000. We think that he has "gone and done it." On our part, we expressed the confident belief that Brian Brown would not get over 2,000, or 2,500, at the outside, in this County. It was a shocking bad guess! But the German Wards fairly beat all calculations.

Official vote of Indiana.

The following are the Official majorities of the several Democratic candidates on the State ticket in Indiana, at the recent election:

Daniel McClure, Secretary of State,			2,581
John W. Dodd, Auditor of State,			1,749
N. F. Cunningham, Treasurer of State,			2,218
Joseph E. McDonald, Attorney General,			1,534

Andrew Davidson, " "	2d "		3,116
Samuel E. Perkins, " "	3d "		4,072
James M Hanna, " "	4th "		2,111

The entire vote of the State, (the highest being that cast for the candidates for Treasurer,) was 213,050, which is 21,782 less than that cast in the Presidential election of 1856.

The aggregate vote for the Congressional candidates, in the several Districts, is as follows:

1. Hovey (Opp.)	8,946	*Niblack*, (D.)	10,329
2. Wilson,	7,484	*English*,	9,292
3. *Dunn*,	9,363	Hughes,	8,886
Carr, (A. L. D.)	1,482		
4. Heckleman,	7,866	*Holman*,	9,626
5. *Kilgore*,	9,383	Develin,	5,921
6. *Porter*,	10,776	Ray,	9,715
7. *Davis*,	10,892	Secrist,	7,584
8. *Wilson*,	11,023	Blake,	10,387
9. *Colfax*,	14,541	Walker,	12,610
10. *Case*,	10,780	Dawson,	9,410
11. *Petit*,	10,748	Coffroth,	10,083
	113,180		103,197

Total Congressional vote, 216,377—being an excess of 3,327 over that cast for the State ticket. Opposition majority, 9,983.

VIRGINIA.—The Democrats have called their State Convention at Petersburgh, on the first of December. A Governor is to be nominated this Fall, although the election does not take place till next Spring. There are four candidates for the nomination, Messrs. Letcher, Faulkner, Hopkins and Edmundson, all members of the present Congress. Of these the first two are the most prominent, Mr. Letcher being Senator Hunter's candidate, and Mr. Faulkner Gov. Wise's. The struggle is between the respective adherents of these well known politicians.—Whichever succeeds at the Convention will claim the future direction of the Party in Virginia.—As both Gov. Wise and Senator Hunter are aspirants for the Presidential nomination at the Charleston Convention, the result is highly important to each of them.

ELECTION RETURNS.

Monroe County.

SPARTA, Monroe Co., Nov. 3d, 1858.

We had a spirited election in our village yesterday, with a full vote cut—491. Washburn's maj. is 112 over Dunn. Marshall, Rep., for Assembly 141 over Whalen, Dem.

But six towns in the County, of 14, have yet been heard from, which increases Washburn's majority 71, and Marshall's 62.

Washburn's majority will undoubtedly be increased by the remaining returns to our 300, and Marshall's about the same. The 2d District stands erect!

Yours truly,

WATERTOWN, Nov. 3, 1858.

Our election went off quietly. LARRABEE'S majority is 268 in the city. HUBART [Dem.,] had 540 in 1856. Democratic loss about 270.—L. A. COLE, Independent, is elected to the Assembly by 269 majority. He is a true-hearted, noble and generous man, honest above suspicion, and every inch a Republican. The North-Western Assembly District elects CONKLIN, Republican. The Dodge County Republican ticket is elected. In Jefferson County, the thing is very much mixed. O.

Convicted for Killing a Slave Fourteen Years Ago.

The once celebrated and long protracted case of the State of Alabama vs. FRANCIS J. CECIL, for whipping a slave to death, was at length decided about two weeks since in the Circuit Court of Henry County at Enfala.

More than fourteen years ago, in February 1844, in Barbour county, John, a slave of Dr. Alexander P. Crawford, was most brutally whipped to death. The prisoner, who was then Dr. Crawford's overseer, being immediately after the whipping, and while John was yet alive, charged with it and threatened with a prosecution, fled from the neighborhood. Two years after he was arrested by Mr. Thomas Cargile in the city of Montgomery, passing under the name of Boyd; and, being brought back to Barbour county, the grand jury at the Spring term, 1846, found a true bill against him for murder.

The venue was soon changed to Henry county, where the prisoner had formerly lived, and where he had some relatives and many friends, and a trial being had at the Spring term, 1849, before the Hon. Samuel Chapman, he was found guilty of murder and sentenced to the penitentiary for ten years, the jury, however, omitting in their verdict to ascertain the degree of the murder. On account of this omission, the judgment was reversed by the Supreme Court and the prisoner remanded for another trial. Various continuances were had, sometimes at the instance of the State and sometimes at that of the prisoner.

In the meantime the defendant, having obtained bail, married in a respectable family, and had a feral children. The protracted ordeal through which he had passed, the interest felt in the family to whose fate he had singularly linked his own, and the influence of a prudent and correct deportment on his part, excited sympathy in his behalf so strong as apparently to set at defiance, and, in the opinion of everybody, to put a conviction out of the question.

The inevitable hour at length, however, rolled around, and the trial commenced. The drawing of the jury consumed a day and a half. So many had a fixed opinion as to the guilt or innocence of the accused, that only five were selected out of the original hundred, and the other seven were obtained from an additional eighty who had to be summoned.

The testimony was brief. Dr. Crawford, the main witness for the State, and who testified on the first trial, having died years ago, proof of his evidence was given by one of the jurors who sat upon the former trial. The defence offered no testimony but the good character of the prisoner and the bad character of the negro.

The jury, about four o'clock Saturday evening, having retired, and deliberated about three hours and a half, returned a verdict of manslaughter in the first degree, with a unanimous recommendation of the prisoner to mercy.

So intense was the feeling, and so high the excitement manifested by the people, that the Judge, when the jury came in, and before the verdict was announced, declared from the bench that he would rigidly punish any man who might hiss or applaud.

OUR RAILROAD.—H. O. Sikman, Esq., the newly appointed Chief Engineer of the Hudson and Superior Railroad arrived in town this week. He has organized his party and commenced the surveys necessary for a definite location of this end of the line. It is his intention to get ten miles of this end of the road in readiness for the work of grading before winter sets in.

Mr. Noyes, the Contractor is expected here with a large amount of supplies, in the course of a few days.—*Hudson Chronicle, Oct. 20.*

WASHINGTON, Nov 1.

The following officers have been ordered to the steamer America: Commander Joseph R. Greeu, Lieutenants—Cupler, Belknap, M. P. Jones, Adams and Green. Engineers—DeLace, Snyder, Whitaker, Develin and Brain.

The following officers have been ordered to the steamer Metacomet: Lieut. Commanding —Newcombe, Lieutenants—Moore, Fairfax, and Gilley.

The above vessels belong to the Paraguay Expedition.

J. H. Richburn, of Albany, has been appointed as Lieutenant of the Marine Corps, vice Payne dismissed. Lieutenant Maffitt has been ordered to the Coast Survey. Livingston, of the Navy has resigned.

Mr. Butterfield, President of the California Overland Mail Route, made application to day for the protection of the country traversed by their stages, from Indian incursions. The Secretary of War gave him a most cordial reception, congratulated him on his success, and assured him that military protection shall be afforded at an early day as possible. The troops will probably be concentrated at Fort Smith, in considerable numbers, and be moved in suitable detachments to the exposed points. This important movement of the Government will, and is designed to, open all Texas and Arizonia to settlement.

The forces which are so successfully fighting the Comanches are to be promptly reinforced by a regiment from Fort Leavenworth, with the view to compel them to sue for peace. Improved arms, similar to those which are so effective in Washington and Oregon, will be forwarded to Fort Smith.

The President favors the protection of the mail and emigrant routes from Indian attacks.

Mr. Butterfield left for home this afternoon, greatly pleased with the comprehensive plans of the Secretary of War. He will soon start for Memphis, Little Rock and Fort Smith, to see whether that route cannot be greatly improved. The Postmaster General is satisfied that the mails can be carried from California in from twenty to twenty-two days, as soon as the War Department shall bring the Indians along the route under control.

The New Orleans papers furnish further details from Vera Cruz to the 22d ult.

There was a rumor current at Vera Cruz that Gen. Ouba, the commander of the Zuloaga forces, near Orizaba, had received orders from the City of Mexico to join Echeagaray, at Jalapa.—It was reported that Gen. Degallado, commander of the Constitutionalists, had entered Guadalajara Oct. 5th. The official bulletin of the General of Zacatecas, announces that the town of Lagos had been taken by the Constitutionalists from Zacatecas and Nevolecuse.

The steamer Quaker City left New Orleans on Wednesday, for Mintitlad, to open the Tehuantepec route. Many applications were made for passage through to San Francisco, but only a few were accommodated.

The Pension officer, during the month of October, issued 669 land warrants under the act of March, 1855, to satisfy which about 100,000 acres will be necessary.

Isaac Holland, the doorkeeper of the United States Senate Chamber, died to-day.

Special Dispatch to the N. Y. Tribune.

From Washington.

WASHINGTON, Oct. 31st, 1858.

Mr. Buchanan has expressed a disposition to recommend specific duties as a substitute for *ad valorem* duties, upon the revenue principle, and to prevent the frauds notorious under the present system. Senator Bigler and others have encouraged this inclination. Secretary Cobb adheres to Free-trade dogmas obstinately, and openly ridicules the policy of Protection. Wide differences are to be reconciled before any agreement can be reached.

The subject has not been considered in the Cabinet, and may be deferred until the arrival of leading Southern members. Mr. Hunter is known to be opposed to any change. Some Pennsylvanians urge the repeal of the act of 1857 simply, and then suggest the falling back on the Tariff of 1846.

Gov. Denver will be restored to the Commissionership of Indian Affairs after the Annual Report is made, and Mr. Mix replaced in the Chief Clerkship.

The Union is to be re-organized during the coming session by the retirement of the present editors, and the restoration of John Appleton, who is to leave the Department of State.

Other changes rumored in the organs in large cities, though admitted to be needed, are not proposed through any arrangements here. The bare report has, however, alarmed the *Pennsylvanian*, which, notwithstanding all the patronage, is alleged to be on its last legs.

Commodore Kearney and Commander Root were removed from the New-York Navy Yard, from political considerations entirely, both having only served a year. The transfer of the former to Com. Shubrick's vacancy, was a contrivance to escape censorious criticism.

Capt. McCauley applied previously for the place, and was answered that it would be reserved for Shubrick's return. The Navy Yard is to be used as in Philadelphia. Watch it!

An English officer direct from Paraguay reports that Lopez is preparing effective modes of resistance and defence by building fortifications and obstructing the navigation of the river. He has placed chains and booms across, and proposes sinking light vessels in the channel, in which event our expedition could not ascend.—Several Belgian and Hungarian officers are engaged in directing operations.

Recent experiments satisfy the Department that the chartered steamers will bear the shock of heavy guns, but it is very much doubted whether they are otherwise fit for service, owing to their frail construction and the impaired condition of the machinery, much of which is exposed above decks, and is constantly liable to injury in battle. In engagements they must be fought bows on, and are too sharp for that service. The whole expedition has been fitted out with an imperfect knowledge of the requirements needed and the hazard to be encountered.

The Sabine is expected to reach its destination in forty days more, and the hope of the Administration now is, that Bowlin's diplomacy will save it from public ridicule and serious contingencies, which are threatened.

Mr. Butterfield and his agent Corbin, who flourished before the Tariff Investigation last Winter, made application to Postmaster-General Brown yesterday, to get monthly instead of quarterly payments for transporting the Overland Mail, but were politely refused. The rule would not be relaxed.

Mr Van Dyck, the District Attorney of Philadelphia, has made a contract for opening the Nicaragua route in connection with Jersey. The disabled Lecomptonites are to be the first passengers.

The President's proclamation against Walker's expedition will be as much respected as any circus show-bill. The project has long since been organized, and the knowledge of it led Nicaragua and Costa Rica to solicit the protection of England and France. Hence M. Belly's scheme, and Sir Wm. Gore Ouseley's Mission. The latter has completely bamboozled Buchanan. He succeeded in getting Mr. Clingham's movement to abrogate the Clayton-Bulwer Treaty, which the President originally favored, suppressed through Buchanan's intervention, promising, as a consideration, that Europe would co-operate in the acquisition of Cuba.

The Cabinet abandon New York as lost irreparably, and mourn in advance. Nor do they expect half a dozen Congressmen, notwithstanding Dan. Sickle's assurances.

Trial of Mrs. Studley—Verdict of Guilty.

The trial of Mrs. Lydia Studley, for the poisoning of her husband, was brought to a close yesterday. The case, for peculiarity of the circumstances surrounding it, and from the age of the prisoner, has excited in this community an unusual degree of interest. The facts, as developed in all the investigations which have taken place, are simply these: Mrs. Lydia Jones, aged 35, marries Edward Studley, aged 75; she thinking he has property, which proves not to be the case. He is a feeble gentleman, and becomes somewhat of a family burden. A few months subsequent to the marriage he died from the effects of poison. Rumor, painted full of tongues, is soon abroad and suspicion fastens on the wife of the deceased; long investigations follow, the result of which is, Mrs Studley is arrested, indicted before the grand jury, and put upon trial. Two days are consumed in the examination of witnesses, the third is occupied with the arguments for the defence and prosecution, and the Judge's charge. The jury are out about two hours, and render a verdict of "Guilty." No pains were spared by the counsel for the defence in the collection of favorable testimony; but the convictions in the minds of the jury were too strong, from the nature of the evidence, and the verdict rendered must be taken as that according with the principles of justice.

MR. FRANCIS, the Boat Builder.—A gentleman who is traveling in Europe, thus writes from Hamburg:

> My next neighbor in the stage soon took out of his pocket a New York weekly paper to read, and by that I guessed him to be an American, and who was it? Mr. Francis, the inventor of the metallic life-boat. I understood that he has met with great success in France and in England, and now on his way to Russia by special invitation of the Russian Government. As I congratulated him upon his having succeeded so well, he said: "We Yankees are always determined to succeed."

☞ It is currently reported that the British Government will shortly issue a pardon to Thos. F. Meagher, the Irish exile.

THE GOULDY TRAGEDY.—The accounts as to the condition of the Goulding family are more favorable. Mr. Gouldy was conscious all day yesterday. He knows that he has been the victim of some violent assault, but has manifested no inquisitiveness in the matter. He once casually asks for Frank, but the conversation is directly turned by his friends to something else. On Saturday he gave directions as to the way in which he wanted a silver ice-pitcher fixed. His right arm and side are still paralyzed from the effect of the injury to his brain. Notwithstanding his marked improvement, his physicians do not consider that the critical period in his case has yet arrived. Mrs. Gouldy is fast recovering. The boy Nathaniel is doing well, and the symptoms of erysipelas has entirely disappeared. Little Charley is improving rapidly. The servant girls are both much better.

Another theory of the massacre has been broached. It is said that some time previous to the commital of the deed, young Gouldy had been reading some glowing accounts of Frazer River and its golden treasures, and that he mentioned to a few friends his determination to go there; that he accordingly applied to his father for money to pay expenses of the voyage, which the latter refused, when he exclaimed, in an emphatic tone, "I'll have it."

On this account, it is supposed that he intended to murder the whole family, and after wounding himself give the alarm, when he would relate some story about the house having been entered by burglars, and the family murdered, and then, as there would be no other heir, he would come in for the property. But not being able to execute his purpose as soon as he wished, he blew his own brains out. His cowardly habits when a boy are spoken of by several boys considerably younger and smaller than himself, who often insulted him with impunity, snatching away his marbles, &c., he acting the part of a non-resistant. While at sea, the captain with whom he sailed and who is said to be his uncle, says he was very lazy, and was kept to his station only by rigid adherence to the rules of the ship. "Were it not," says one of the physicians, "that he had the knife carefully sharpened, the pistol loaded to the muzzle, and his hatchet concealed in his room, I should have said that his acts on that unfortunate night, were the result of a sudden fit of insanity."

This terrible tragedy was alluded to in the sermons preached in several of the city churches yesterday. The Rev. Mr. Crawford, pastor of the church with which the Gouldy family were connected, preached from the text, "My son if sinners entice thee, consent thou not;" PROV. 1:10.

The sermon was entirely devoted to the duties of children to their parents, the divine justice and necessity of parental restraint, and the sad consequence flowing from a reckless disregard of the discipline of the household.—*N. Y. Commercial, Nov. 1.*

LITERARY INTELLIGENCE EXTRAORDINARY.—The "Reveries of a Bachelor," new series, edited by James Buchanan, are to be published in serial form by Wendell & Co., of Washington City, through the columns of the official paper. So says the Louisville *Journal*.

A new work, entitled "Pennsylvania German, by a Banished Congressman" is in press. Rumor has it that the author is that fine Persian and Sanscrit scholar Jones, well known as the author of "What Constitutes a State." The *ex dit* that this distinguished "*Statesman of the Committee of Ways*" is engaged on a new White House Cookery Book is untrue. We have it from an ex-member of the Kitchen Cabinet.—"Pennsylvania German" will be printed in both languages and will be for sale at Dutch John's, in Reading.

Jones Owen, author of a "Treatise on Original Sin," is getting out a biography of the late Hon. Lecompton Constitution, whose death we were grieved to chronicle on Wednesday, week before last.

"The Romance of Florence, or the Boat Builder's Son," will not be finished until the next Congress. It is still continued in that thrilling periodical, "The Two Sloops, or the Irish Privateer," published weekly at the Navy Yard.—*Lancaster Union, 27th ult.*

☞ DYSPEPSIA, HEADACHE AND INDIGESTION, by which all persons are more or less affected, can usually be cured by taking moderate exercise, wholesome food, and a dose of Brehnke's Holland Bitters, one hour before each meal.

THE DYING CHILD.

BY G. B. MARION.

Open wide the window, mother,
Let me breathe the air of May,
It may soothe this burning fever
Which is wasting me away.

Let the cooling zephyrs, mother,
Fan my fever-heated brow,
Let the sun's rays, growing fainter,
Gently steal across me now.

Let me by the twilight, mother,
Watch the boys sport in yon glen,
For I know that I will never
See them at their plays again.

For I'm slowly dying, mother,
And soon will my spirit go
From this, to a world far brighter,
Where there's neither death, nor woe.

When I'm dead, you must not, mother,
Shed for me a tear of sorrow,
But give praises to the Taker,
Consolation from Him borrow.

Lay me in the church-yard, mother,
'Neath the weeping willow's wave
Which keeps silent vigil over
Brother Willie's little grave.

Deck my grave with flowers, mother,
O'er my head my pretty rose,
And come visit me, with father,
When the days draw to a close.

I am getting weary, mother,
On my pillow rest my head,
And then kiss me, ere I slumber—
Slumber with the silent dead.

I can hardly see you, mother,
Death I feel is very nigh—
Limbs grow colder, heart beats slower—
Mother! Mother, dear! good-bye.

Milwaukee, November 4th, 1858.

The American Horses in England.

Censor, the London correspondent of *Porter's Spirit* says that Mr. Ten Broeck is difficult to beat in match making. He ran two races on the first Newmarket day, and won both; Babylon won in a canter. Woodburn and Harry ran a tremendous race, the famed light weight, Fordham, steering the American, and the talented Rogers doing his best for Harry, but the Duke of Bedford's nag was forced to succumb to the foreigner. Ten Broeck's Orlanda subsequently beat the Duke of Bedford's Virgil with ease.

DESCRIPTION OF THE CESARWITCH RACE.

Another correspondent of the *Times* thus describes the Cesarwitch race:

Whilst mustering at the post several horses broke away in their eagerness and caused a couple of failures, but a capital start was effected, and after settling into places the running was taken up by Mallacca, followed by Scribbler.—The Zouave, Worcester, Beeswing, Rose, English Rose, Fearful and Rocket, who got the best of his rider for some distance, lying next, in company with Barbarity, Mademoiselle de Chantilly, Bellona, and Matlas, at the head of the ruck, and Prioress, Black Tommy, The Brewer, Underhand and Mr. Clarke's two being in good places in the middle, whilst the rear was chiefly composed of the heavyweights, to whom Melissa noted as whipper-in. The pace at which Mallacca led them had a visible effect on the competitors through the ditch gap, several of whom from its effects were thus early disposed of. The English Rose, Mademoiselle de Chantilly, Lifeboat, the Grand Secret and Honeytree being of the number.

Rising the hill on to the flat, Scribbler took a commanding lead, and The Zouave became second, Malacca going on third, and Janet next for a short distance, when the latter disappeared in the ruck, at the head of which Fearful and Rocket still occupied good positions. About the new ground Bellona retired, and Mr. Sykes, Prioress, Turned Loose, Poodle, Black Tommy, and Underhand drew up to Rocket's heels, whilst Satina tone was running by himself on the extreme right, with The Brewer, who separated the foregoing division from the main body, right in his track. The remainder were at this point, scattered all over the course, and it would be absurd to attempt the impossible task of determining their relative positions. There was no diminution of the pace, or material alteration in the position of the leading horses with the exception of Malacca and Fearful giving up about the T. Y. C. winning post, until near the Bushes, when the instant the spectators there assembled began to shout, Scribbler shut up, and disappeared from the van. The Zouave, who was pulling tremendously, thereupon took up the running, and carried it on the top of the hill where he was joined by Mr. Sykes, Courier, and Turned Loose on the left, and by Rocket with Prioress at her quarters.

Wide on the right of the American mare were Satinstone and the Brewer, to which lot the race was now left, Poodle having dropped back just before. Descending the hill, Mr. Sikes headed the French horse, but in the bottom both were beaten, and Rocket went on with a slight lead of Prioress. Passing Satinstone in the coords, these two were challenged half way up by the Brewer, who was full of "go," and looked like winning easily—in fact, at one moment he had the best of it, but the others struggling on with great gameness, and the steeple-chaser (his jockey assured us) stopping at last—one of the most exciting races ever seen, resulted in Rocket's favor by a head, Prioress and the Brewer running a dead heat for second honors. Satinstone, who finished close under the chair, was beaten two lengths, and Zouave (on the fair side) finished fifth, just clear of him, the Courier being sixth, Turned Loose seventh, Beson eighth, and Scribbler ninth, scarcely a length, each separating the latter five. Mr. Sikes and Fearful were next at the head of the ruck, and the last lot widely scattered, comprising Lifeboat, Black Tommy, Old Trick, Worcester, Bellona, Vandermullen, (who broke down,) Melissa, English Rose, Grand Secret, and Mdlle. de Chantilly, the last three being tailed off an immense distance, Run in 3 min. 56 sec. Net value of the stakes £1,600.

We find the first three nags in this race weighed as follows: Rocket the winner, three years old, 88 pounds; Prioress, five years old, 126 pounds; and Brewer, five years old, 98 pounds. Prioress was the favorate at starting, at 4 to 1 against her, with 100 to 6 against Rocket.

Y., may be consulted at his Rooms, No. 8 Walker House, Milwaukee, the *first* week in every month, commencing Nov. 1, in regard to all diseases, which he treats with unprecedented success. He cures chronic cases of a disease, which have been pronounced incurable by the medical Faculty generally, such as Nervous and Neuralgic Affections, Diseases of Women, all forms of Scrofula, Dyspepsia, Constipation Pain Diseases, Cancerous and Tuberculous Affections, including Pulmonary Consumption, Rheumatism, Paralysis, Epilepsy, Scrofula and Inflammatory Fevers, the diseases of Children, &c. All the perils and most of the sufferings of childbirth are removed by early consultation.

THE "IMPORTANCE OF REGULARITY."—It is highly important that mankind should observe strict regularity in all the affairs of life. Regularity induces health—Irregularity produces disease. Most people are particular about eating at regular hours—retiring to rest at regular hours—rising at a regular time—and we should be equally as particular about discharging, from the bowels, the fecal and acrimonious humors of the body at a regular hour—to empty the bowels of their contents at a regular time. If mankind would observe this great and important duty, and prepare their bowels to more regularity, they would avoid much sickness. Radway's Regulators induce Regularity. They regulate every organ to regular action. The Liver, Pancreas, Kidneys, Heart, Skin, Bowels, and all other organs, will, after the action of Radway's Regulators, move with all the regularity of clock work. Persons troubled with Costiveness, Indigestion, Dyspepsia, &c., will find, that, by taking one of Radway's Regulators every night, on going to bed, they will have a pleasant discharge of the bowels in the morning at a regular period of time. One Regulator will regulate—three will purge.

TO THE PUBLIC.

In answer to the numerous letters addressed to me on the subject of the Mustang Liniment, I would say that I have had no connection with that article for several years. It was invented by me, and while put up under my control and supervision, was universally accepted by the public, as the best liniment in the world. In 1854 I sold out my interest in it to other parties, and since that time it has passed through the hands of several persons, most of whom have been so unscrupulous as to manufacture it of inferior and cheaper articles, and thus have greatly destroyed its value as a medical remedy, trusting for success in selling to its former highly established reputation. The present proprietors have come so far as to substitute other articles in the composition for those in the original prescription, so that the Mustang Liniment now vended possesses no one of the distinguishing characteristics of the genuine article, as it was originally invented and manufactured by me. That article is now before the public in a new facility to foist their worthless and injurious article on the public, as *my name* as its pioneer, calling it "BRAGG'S" Mustang Liniment, and cautioning the public to beware of any other Bragg's Liniment as an imposition. This is done with a view of exciting a prejudice against "BRAGG'S ARCTIC LINIMENT," an article more recently invented by me, and possessing all the virtues of the Mustang, and many others which the improvements—the result of experience and later discoveries—and manufactured by Bragg & Burrowes, which firm is composed of my son, Oliver T. Bragg, and Michael Burrowes. This article is superior in many respects to the Mustang, when it was put up pure and in good faith, and is immeasurably superior to the article now vended as the Mustang Liniment. It is also the only liniment manufactured to which my name is allowed by my authority or consent. In conclusion, I cannot hold myself responsible for any of the evil results of using the Mustang Liniment now vended, and especially after this public disclaimer of any connection with its proprietorship or manufacture.
Respectfully, A. M. BRAGG, M. D.

☞ FRIENDS OF HUMANITY.—To you (always pleased to aid the suffering) it may appear incredible after in vain trying all the "wonderful" medicines of the day, that one application externally, and a few drops taken internally, of my (genuine) "Electric Oil" which can be had for a trifle, will relieve the sufferer from the most violent pains; yet it is a fact, as testified to by good men and good women, whose names are at my office.

Not any have ever used it but declare it to be equal to a dozen doctors, and that they will have a pleasant discharge of the bowels in the morning at a regular period of time. One Regulator will regulate—three will purge.
